Transaction type- Outward

For an outward type of transaction, in the 'Bill From' section, name, GSTIN and address of the supplier is auto populated with the user details in the 'Bill From' and 'Dispatch From' section. If the address of the place of dispatch of goods is different from the auto populated address in the 'Dispatch From' section, then, the user is allowed to edit the address accordingly.

In the 'Bill TO' section, GSTIN needs to be filled by the user and all other fields like name, address state etc. will get auto populated as the facility of 'search taxpayer' has been incorporated in it. The user has to enter the URP in GSTIN column, if the consignee is an un-registered person.

Transaction Type- Inward

For an inward type of transaction in the 'Bill TO' section, the name, GSTIN and address of the recipient are auto populated with the user details. If he has the additional places of business, he will be allowed to select the place. Here, in spite of auto update, the user is allowed to edit the address.

In the 'Bill From' section, GSTIN needs to be filled by the user and all other fields like name, address state etc. will get auto populated as the facility of search taxpayer has been incorporated in it. If the supplier is unregistered for GST, then, the user has to enter the GSTIN as URP, indicating that the supplier is an 'Unregistered Person'.

In case of export or import, the GSTIN will be URP and Pin code and State will be 999999 and 'Outside Country'.

6. Consolidated EWB

- When a supplier is sending multiple consignments in a single vehicle, then, a consolidated e-Way bill is generated which will have information of all the consignments.
- The transporter along with the serial number of consignments individually has to update the vehicle number as well in which transportation will happen. Every supplier is under the obligation of providing the vehicle number on the website as to get it printed on the e-Way bill.

The user can generate New Consolidated e-Way bill by clicking on Consolidated EWB \rightarrow Generate New.
